

List Showcase

An unordered list, including one wrapped item:

- * Star-marked alpha is the first unordered item.
- * Star-marked beta is the second unordered item.
- * Star-marked gamma is the third unordered item.
- * Star-marked delta wraps onto a second line so its continuation is folded back into the same list item rather than splitting off as a paragraph.

An ordered numbered list:

1. First ordered step in the procedure.
2. Second ordered step in the procedure.
3. Third ordered step in the procedure.

The study asks the following questions:

1. Question one introduced after a colon line.
2. Question two introduced after a colon line.
