

Profile Driven Heading Detection

Background and Motivation

This section body is ordinary Helvetica prose at the body size, set below a heading whose only cue is a distinct font slightly larger than body — no bold, no numbering — which the style profile must catch.

Method and Materials

This section body is ordinary Helvetica prose at the body size, set below a heading whose only cue is a distinct font slightly larger than body — no bold, no numbering — which the style profile must catch.

Results and Discussion

This section body is ordinary Helvetica prose at the body size, set below a heading whose only cue is a distinct font slightly larger than body — no bold, no numbering — which the style profile must catch.
